Entrepreneurship EU Projects HTL Wolfsberg

Why participating in Entrepreneurship-Projects?

**Because we want our students to
*DO AND UNDERSTAND...***

Challenges...

1. We live in a very **fast and globalized** world.
2. Students face more **extensive requirements in the labour market.**
3. EU-28 has a current **unemployment rate of 19 million people (9.3%)**
4. **Fast changing technologies** need an environment of „**lifelong learning**“
5. European Commission promotes **entrepreneurship spirits and new skills** to encourage people to set up their own business:

An increase of 1% in the number of enterprises results in an increase of 3% in GDP!

What qualifications are required?

Students need entrepreneurship skills and attitudes like

- ❖ **organisational** and **teamwork** skills
- ❖ a sense of responsibility and **self-reliance**
- ❖ **language** skills
- ❖ **communication** skills and
- ❖ **cultural** skills

„Learning business by doing business“

is a good methodology to inspire students
and to prepare them for solving tasks!

- ❖ Erasmus+ is the EU programme in the field of **education, training, youth and sport**.
- ❖ It supports the implementation of the **European policy agenda for growth and jobs**.
- ❖ **Important features are**
 - Recognition and validation of skills and qualifications
 - Dissemination and exploitation of project results
 - International dimension
 - Multilingualism

„Learning business by doing business“

**We want our students to
DO AND UNDERSTAND...**

*... in order to prepare them to get good jobs
and maybe some of them will be the
entrepreneurs of the future.*
